

ITALY IS READY FOR ANYTHING

Country Calm and Disciplined
and Willing to Make Any
Necessary Sacrifice.

REQUEST IS DENIED

Twenty-nine Freight Cars
Destined for Krupp Gun
Works Seized.

Rome, via Paris, March 24.—Commenting favorably upon the adjournment of the chamber of deputies, the Giornale d'Italia says every deputy now is convinced of the necessity for Italy to act energetically, "facing any sacrifice, even a supreme struggle, to realize Italian aspirations." The paper adds:

"With the full liberty of action granted by parliament the government now is free to choose the way, the means and the hour of using the weapons at its disposal with the firmness and prudence necessary to insure success while the country, calm and disciplined, is ready for anything."

Rome, via Paris, March 24, 12:50 a. m.—The Italian government is said to have refused a request made by Germany that a mission sent to Erythraea be permitted to continue its journey through that district into Abyssinia. Italy's refusal is reported to have been based upon the belief that the object of the mission was to incite an attack by Abyssinians upon British forces in the Sudan.

Erythraea is an Italian protectorate in East Africa, bordering on the Red sea opposite Turkish territory in Asia.

Geneva, via Paris, March 24.—The Italian government ordered the seizure yesterday at Luino, near the Swiss frontier, of twenty-nine freight cars containing graphite, sulphur and other supplies said to have been destined for the Krupp gun works at Essen, Germany. The Tribune reports that an Italian agent at Luino was arrested on the charge of purchasing the materials.

"Stop Thief." Ogden Theater. 10c.

BODY OF MISSING
MAN IS FOUND

Sharon, Pa., March 24.—James Cullinan, plowing in a field near here today, unearthed the body of W. T. A. Baer, a wealthy contractor, who disappeared a year ago. The body was wrapped in a blanket, wound around with wire. The skull had been crushed. Baer, who had a large amount of money in his pocket when he disappeared,

peared, was sought throughout the country by detectives.

YOUNG MOTHER CHOKED TO DEATH

Chicago, March 24.—Mrs. Anna Kovich was found choked to death in her home today. Eight lodgers in the house were taken into custody as well as her husband, Samuel Kovich. Finger prints on her neck seemed to indicate the manner of her death. Mrs. Kovich was 19 years old. In a crib near the body her year-old baby was sleeping peacefully.

HOW TO PREVENT ACID STOMACHS

And Food Fermentation

By a Stomach Specialist.
As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, therefore, which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated and inflamed by these two elements—acid and wind. In all such cases—and they comprise over 80 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisulphate of magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisulphate of magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.—Advertisement.

CHINA ORDERS TINPLATE.

Pittsburg, Pa., March 24.—The government of China this week ordered \$240,000 worth of tinplate, a total of 70,000 boxes, to be rolled by the American Sheet & Tin Plate company. No statement as to the purpose of the order was made, but advices said that China would place other orders here in the near future, owing to the great difficulty of securing English or Welsh tin because of the war.

AUSTRIANS BLOW UP BUILDINGS

All Obstructions to Line of
Artillery Fire Near Italian
Frontier Dynamited.

Geneva, via Paris, March 24, 5:40 a. m.—An uncensored dispatch to the Tribune from the Austrian border states that Austrian military engineers have blown up with dynamite all the buildings between Sugani Pass, in Trent, and Lake Garda on the Italian frontier, which would be in the line of artillery fire.

The eastern part of the town of Rovereto is reported to have been abandoned and all the buildings torn down. All persons suspected of pro-Italian sympathies are said to have been sent into the interior to be interned.

War With Italy Probable.

Geneva, via Paris, March 24.—The Austrian government now considers war with Italy more than probable, according to dispatches received here from Vienna. A large number of troops have arrived in the Tyrol and Trieste, where defensive works are being constructed.

The Geneva Tribune professes to have received advices from Austria to the effect that the dual monarchy might consider the signing of a separate peace with Russia without consulting Germany, offering as a concession to cede to Russia large portions of Galicia.

BACK HAUL RATES TO BE ADJUSTED

Hearings Before Interstate
Commerce Commission to
Begin on April 12.

Washington, March 24.—The interstate commerce commission today set April 12 for hearing on plans for readjustment of back haul rates by transcontinental roads from Pacific coast terminals to points east of the terminals in coast states and in the so-called intermountain country.

Adjustment of the rates was suggested in a recent order by the commission authorizing the transcontinental roads to decrease commodity rates to Pacific coast terminals in order that they might compete with water carriers using the Panama canal.

An increase in back haul rates was suggested as a proper means of increasing the carriers' revenues. Plans for such readjustments have been filed with the commission by roads which reach the California and northern coast terminals.

The roads, in submitting their plans also petitioned the commission for a modification of these orders which

would permit the establishment of lower rates on less than carload commodity shipments from Missouri river points to points intermediate to the Pacific coast. They seek to name rates made by taking 80 per cent of the present class rates from Missouri river points to Reno and Phoenix points and Spokane. Such change would make reductions of from 25 to 50 cents per 100 pounds.

The plans for backhaul adjustments presented by the California and northern coast carriers differ in detail, but in theory they agree that the charge for that kind of haul shall be computed with regard to its length from the coast terminals.

DANIELS TO SEND SHIP FOR HEMP

Sisal Corp of Yucatan Must
Be Moved—Destroyer Sent
to San Juan.

Washington, March 24.—Secretary Daniels at a further conference with representatives of sisal importers today said he would send a warship to Progreso if no other means could be devised to transport money to move the sisal hemp crop. No warship has yet been designated. Commander Blakely of the cruiser Des Moines at Progreso reported today that all was quiet there.

Destroyer Sent to San Juan.
Admiral Fletcher, commander-in-chief of the Atlantic fleet, notified the navy department today that the destroyer Warrington left Guantanamo, Cuba, last night for San Juan, Porto Rico, to aid port officials in enforcing neutrality. The destroyer should arrive there tonight. Secretary Daniels said it was not planned to send another naval craft to San Juan at present as it was thought the Warrington and the coast guard ship Algonquin would be sufficient.

FULL HONORS OF WAR ACCORDED

Austrian Garrison Stacks
Guns Before Russian Cap-
tors Amid Cheers—
Przemysl Commander
Surrenders Sword.

Geneva, via Paris, March 24.—A summary of what purports to be the conditions upon which the Austrian garrison at Przemysl offered to surrender to the Russians is printed by the Tribune. The following stipulations are said to have been made:

First, full honors of war for the garrison.

Second, special treatment for the prisoners, providing that officers shall be paroled and that none of the troops shall be sent to Siberia.

Third, the right to transport to Austria those killed and wounded during recent attacks.

Fourth, complete liberty for the civil population with the right to leave or stay in the city.

The defenders of the fortress marched out of Przemysl to Russian headquarters with colors flying, says the Tribune in its account of the surrender. "The Austrian governor surrendered his sword to the Russian commander while thousands of Austrian troops piled their arms and ammunition in front of the Russian regiments drawn up in line. The muscovite troops cheered the unarmed Austrians after their last parade."

"The fall of Przemysl has made a profound impression in Hungary, as the flower of the Hungarian infantry was included among the defenders of the city, which was considered impregnable."

EASTER PLANTS

Everybody invited to come to our greenhouse to see our flowers and Easter plants. Easter lilies, hyacinths, tulips, daffodils, cyclamens, azaleas and ferns. Order early and we save the plants. The Mrs. Van Der Schuit-Van Holst Floral Co., 740 Twenty-eighth street, phone 906.—(Advertisement.)

HYDROSULPHITE COLOR.

It is said that the fastest colors on the market are what are known among dyers as hydrosulphite—colors that are dyed with hydrosulphite in a caustic bath. These colors are as nearly fast as any can be made and have been adopted by our government to be used in army uniforms after being submitted to very severe tests.

The dyeing of these colors on cotton yarn is simple, especially when the Scotch tub system is employed. The proper way to dye these colors is to use the vacuum type of dye machine, as the dyestuff experts hold that all air should be eliminated from the cotton before the dyestuff is applied, and this type of machine is best suited for that purpose, because in this system the cotton is stationary and the dye liquor is forced through the cotton by means of pumps.

NO TRAINED NURSE.

Mrs. Finnick (entering kitchen with newspaper)—Norah, a celebrated doctor says that brooms are full of microbes, so hereafter you'll have to give your broom an antiseptic bath every day.
Norah—Shure O'll not! Next thing ye'll be askin' me to give it massage treatments and hippydemie injections, an' ye may as well understand right now that O'll no trained nurse.—Boston Transcript.

STRANGE CHINESE BELIEFS.

Among the many extraordinary customs of the Chinese is that of banding years together in groups of twelve, called "cycles," and naming each year of the series after some animal. Thus, the first year of a new cycle is the year of the Rat, the second the year of the Ox, the third the year of the Tiger. Every Chinese born in the year of the Rat belongs to the Order of the Rat, and so on. The animal class of every Chinese man and woman is thus recorded, and is held to be of great importance in foretelling the

Last & Thomas

future. Another curious fact about the Chinese reckoning of time is that in the Celestial Empire a child is held to be one year old as soon as it is born. With the absurd superstition so dear to the Oriental mind, a baby boy is frequently given a girl's name in order to deceive the evil spirits, who apparently, have an objectionable habit of making it as hard as possible to rear a male child successfully.

LIGHTS.

Mr. Picklelilly came home from the club one morning about 5 o'clock. He entered his happy home, crept up the stairs softly, so as not to awaken his spouse, then felt for the switch to turn on the electric light. He could not find it, and in the darkness

HER BAL MASQUE WAS SEASON'S MOST BRILLIANT AFFAIR

Mrs. Lincoln Valentine.

stumbled over a chair. "What's that?" came a voice from the bed. "Where in the deuce are the lights in this house?" snarled Picklelilly, trying to put a bold face on the matter. "Lights!" cried Mrs. Picklelilly scathingly. "Pull up the blinds!" Judge.

A SLIGHT ABSENT-MINDEDNESS.

"How are you getting on as the presiding officer of your new club?" "Pretty well," replied the emphatic woman. "No trouble with parliamentary points?"

"Not much. The only difficulty I have is to remember that you must hold on to the gavel and hammer with it instead of throwing it."—Washington Star.

TESTIMONIAL AS PROOF.
"How do you like your typewriter?" asked a salesman of one of his customers.

"It's most satisfactory!" was the reply. "I wonder how I ever got along without it."

"That's fine! Would you be willing to give me a little testimonial to that effect?"

"Why, certainly I will," and he pounded out the following:
"After Using this automatic Back-action type writer for three months, I am an Over. I unhesitatingly pronounce it to be the best and even more than these Manufacturers claim for it. During the time been in our possession, it has more than paid for itself in the Saving of time and a labor!"

"John I Smith."

DIFFICULT TO PLEASE.

They had been engaged only a few weeks, but a little coolness had arisen between them.

"There is nothing that makes me so thoroughly angry," she cried, tears of rage in her blue eyes, "as to have anyone contradict me. I just simply hate to be contradicted."

"Well," he said, in a conciliatory tone, "then I don't contradict you any more, Isabel."

"I don't believe you love me," she asserted.

"I don't," he admitted.

"You are a perfectly hateful thing!" she cried.

"You're trying to tease me, aren't you, Sam?" she queried.

"Yes," he conceded.

She was silent for a moment. Then she said: "Well, I certainly do despise a man who is weak enough to let a woman dictate to him. A man ought to have a mind of his own."—Harper's Magazine.

RIGHT TO FIX PRICES DENIED

Patentee Cannot Control Rates
at Which Patented Articles
May Be Sold at Retail.

New York, March 24.—The right of a patentee under the patent law to fix the price at which a patented article must be sold at retail, was denied by Judge Augustus N. Hand, in a decision handed down yesterday in the United States district court. A suit brought by the Victor Talking Machine company to restrain R. H. Macy and company from selling phonographs and records at a lower price than that fixed by the Victor company, was dismissed by Judge Hand.

Counsel for R. H. Macy and company had alleged that in consequence of a decision by the United States supreme court in the Satogaten case to the effect that the owner of a patent could not control the retail price, the Victor Talking Machine company devised a system by which it sold none of its patented articles, but disposed of them under a license system at a stipulated price to the ultimate consumer.

The Macy firm refused to be bound by this plan. Judge Hand ruled that there was only a formal difference between the Satogaten case and the Victor case.

SAME OLD STUFF.

"Black specks dance before my eyes, doctor," complained the society patient.

"This is very annoying and monotonous."

"Yes; they never have any new dances!"—Louisville Courier-Journal.
